- Experience editing videos

This individual would be used as a lead developing and implementing training for specific manufacturing operator job roles and equipment, as well as the potential to lead onsite courses production operators. You will have an opportunity to teach and coach operators who are new in the field.

About MST:

MST is a family company that has been around for about 30 years providing training to industry, including manufacturers and food processors. We have very strong relationships with our clients, and they are typically very loyal to us in return.

We work hard for our employees and we strive to make sure that all roles are rewarding and encourage growth in skills. We give our employees room to own and manage their own projects. We have high standards, but we reward employees for high performance.

We love to hire experienced candidates, but we are also willing to take chances on inexperienced candidates who have a growth mindset and are willing and quick to learn.
